

Marketing to Customers

A Digital Cookie site isn't any good without customers! Learn how you can:

- Enter customer information
- Send marketing emails

1

On the Digital Cookie dashboard, click the “Customers” tab.

2

The Customers page is broken into two sections -

- “My Cookie Customers” for entering customer lists
- “Connect with Customers” to learn more about marketing to customers

Connect with Customers

Running a business means knowing how to keep your customers up-to-date with information! This timeline shows you when your customers will receive an automatic email from the Digital Cookie system — like when their cookies are shipped — and when you can send a message of your own. Click on a circle to see the emails your customers are getting.

3a Send Marketing Emails

To send emails to your customers, simply check the box in front of all the customers you want to reach, then click “Send Marketing Emails.”

Name	Email Address	Status	Total Orders	Total Pkgs	
<input type="checkbox"/> Darren Waithe	Yes	11/18/2019	Open	0	0

Next, select which of the three emails you would like to send at this time: “Open for business,” “There’s still time to order cookies,” or “Thanks for your support.”

To find out more about each of those emails and see a preview, go to the “Connect with Customers” section.

Select the email you would like to send:

Open for business Still time to order cookies! Thanks for your support!

Buttons: Cancel, Send Email

You can select different customers and send different emails to them or send the same email to all your customers at the same time.

When you have made your selection, check the box next to the email you are going to send and then click “Send Email” at the bottom.

3b Add Customer

To add customers manually (instead of importing), click the “Add Customers” button and you will get a screen for entering information.

Add Customer

[< Back to customer list](#)

required *

First Name:

Last Name:

Nickname: Add a personal hello to your marketing emails, e.g. Grandma, Uncle Mike.

Email:

Address:

City:

State:

Zip Code:

Phone:

Notes:

The only required field is name. However, to maximize your marketing, you should complete as many of the fields as possible. If you enter data in the “Nickname” field, the customer will receive their email addressed to the nickname instead of their first name.

When you are finished entering information, click “Add Customer”. The customer information will be stored.

If a girl attempts to add a customer that already has an email address in her customer list, the system will alert her that it is a potential duplicate and ask her what information should be maintained between the two records.

Add Customer

The email you entered is already in your customer list. Since an email address can only be used once, you will need to choose the customer information you would like to keep and merge these records for email: dctest664-22@girlscouts.org

YOU ENTERED	ON FILE
Name <input checked="" type="radio"/> Jane Dow	<input type="radio"/> Suzie Greenburg
Address <input checked="" type="radio"/> 43215	<input type="radio"/> --
Phone <input checked="" type="radio"/> 325-235-0273	<input type="radio"/> --
Notes <input checked="" type="radio"/> --	<input type="radio"/> --

You can also add customers who have made a purchase and aren't in your customer list. See the Parent Orders Tip Sheet for details.

3c Delete Customer

We recommend keeping customer lists from year to year, but there may be times when you will need to delete one or more. To do that, select the box in front of the customer(s) you want to delete, then click on the “more” dropdown menu and select “Delete Customer”.

You will get a pop-up warning that deletion is permanent and confirming how many customers you are attempting to delete. To continue with deletion, click “yes”

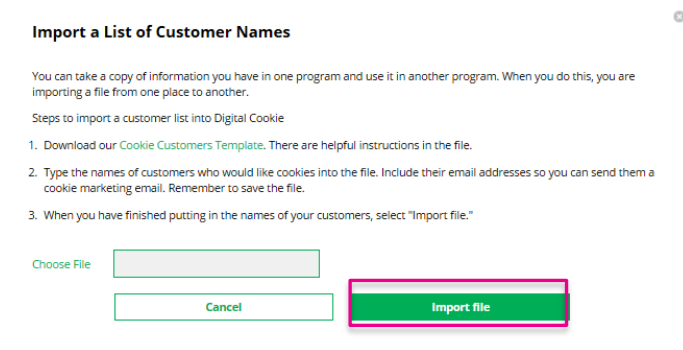

3d Import

Clicking on the “More” drop down menu gives you the option to import a customer list.

The screen has instructions on how to import contacts. It also includes the template that you will need for importing. The template is on the second tab in the spreadsheet, titled “Import_Customer.”

	A	B	C	D	E	F	G	H	I	J	K
1	First Name	Last Name	Nickname	Street Address	City	State	Zipcode	Phone Number	Email Address	Notes	
2	Jane	Dow	Aunt Jane	123 Main St	Rolling Hills	OK	23902		dctest664-14@girlscouts.org		
3											
4											

When the list is prepared and saved, use the “Choose File” button to select your file from where you saved it. Then click the green “Import File” button at the bottom. When it has successfully imported you can send marketing emails to those customers.

3e Export

The “More” drop down menu also gives you the option to export your customer list. When you choose “Export” a screen will pop up with instructions on how to export your customer list and save it to your computer.

Simply click the green “Export File” button and you will be asked where you want to save the file on your computer.

Export Your Customer List

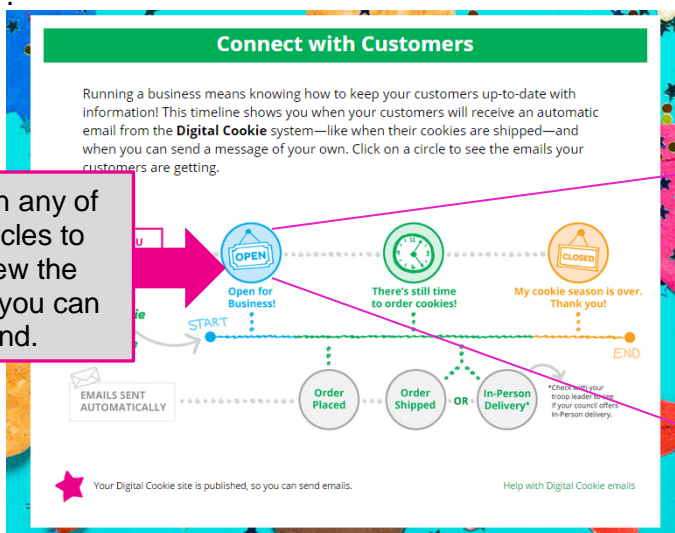

Saving a copy of your customer list is easy. When you select the “Export file” button, a file will download to your computer with the name “DigitalCookieCustomers”. You can rename the file, if you wish, and save it on your computer.
