

Real World Ready Patch

Build your Toolkit for Life!

Girl Scouts of Tropical Florida's Real World Ready Patch Program helps Cadette, Senior and Ambassador Girl Scouts build their own "Life Toolkit" through a collection of skill-building programs designed to prepare them for what comes next. With each event attended and each charm earned, participants move closer to becoming independent, capable, prepared for the future, and ready to take on the world with confidence!

Best of all, Girl Scouts get to **choose their own adventure**- there's no need to attend every program! Participants shape their own experience by focusing on the skills they want to build. Events cover everything from everyday basics like car care, first aid, and money management to big-picture skills like career exploration, civic engagement, and advocacy.

Getting started is easy: purchase the Real World Ready patch and sign up for any RWR program that sparks your interest. Participants earn fun, collectible charms at each RWR event they attend. Prefer a different way to display your new skills? Skip the patch and wear your charms on a bracelet or necklace!

How the Program Works:

1. Purchase the Real World Ready (RWR) Patch for \$5 (coming soon to the GSTF online shop)
2. Attend any official RWR event
3. Earn a unique charm at each RWR event (included with registration fee)
4. Collect charms over time to build your personalized Real World Ready experience!

Each charm represents a new skill mastered and another step toward independence!

Real World Ready programs may include practical life skills, money management, career exploration, leadership development, health and wellness, civic engagement, organization and planning skills, and more. Please check the GSTF Events page for upcoming RWR events.
